Work History

Hilton Brown Swimming
Swimming Instructor

Newmarket, Auckland
January 2021 - May 2021

- Taught swimming lessons to ages ranging from toddlers to adults, enhancing communication and teaching skills.
- Strengthened skills in user-centric problem-solving, clear communication, and iterative feedback

Linden Leaves
Weekend Office Cleaner

Parnell, Auckland
January 2019 - August 2021

- Ensured cleanliness and organization, developing attention to detail, time management and responsibility skills.

Projects

Insurance Proposal Web App (Co-founder, Frontend Developer)

- Co-founded Prose, a web platform similar to Qwilr, designed to streamline insurance proposal creation.
- Solely responsible for developing the front end, implementing a responsive and user-friendly interface.

Capstone Project (Community Impact Award)

- Collaborated on Trippa, a carpooling app using React Native for a sleek and responsive front end, .NET for a robust and efficient backend and Azure for cloud services, we implemented API integration, live messaging, and user authentication.
- This project earned us UoA CompSci Capstone Project Community Impact Award for promoting sustainable travel and addressing New Zealand's commuting challenges.

Achievements

Duke of Edinburgh's Gold Award

- Recognized for completing challenges in self-improvement, physical activity, volunteering, and expeditions.

Activities/Volunteering

- **Bouldering:** Regular climber and occasional local competitor.
- **Football:** Former captain of an Auckland United team, leading practices and representing the club in competitions.
- **Motuihe/Motutapu Island Conservation:** Volunteered in tree planting and environmental conservation projects.

Education

University of Auckland - Bachelor of Science in Computer Science

Referees on Request

Reformat 2 Pages

Page 1

- 1) Statement - 2 × 2 Sentence paragraphs about how you love making beautiful things that get used ...
- 2) Qualifications
 - **Put the year of your degree!!**
- 2) Experience
 - Remove non-relevant experience
 - See other side for replacements
- 3) Projects
 - See note on other side
 - add screen shots

Page 2

- 4) Skills Simplify this heaps i.e see notes
- 5) Personal Interests inc photo and add duke of ed here
- 6) **References**
 - Nicholas Robertson → make sure to "say see letter of recommendation attached"

 Nicholas Robertson

Personal Statement EXAMPLE

I've freshly graduated from University and am existed to progress as a junior web design and web development. I'm particularly interested in building **beautifully useful** web applications.

Although I am AI Native, I am dedicated to learning the intricacies of my craft and optimizing my own ability to **solve hard problems**.

 Nicholas Robertson

Experience

Sparefish Limited

React Developer

- Building pixel perfect user interfaces for Clients from UI-UX designs
- Primarily e-commerce web applications with some Shopify integration

Prose

Co-Founder

- Web design and development of the Insurance SaaS
- Honing my skills in Figma, React, Vite, Tailwind, Shadcn

 Nicholas Robertson

Recent Projects

One Dose Web App (Screenshots)

- An Australian start-up focused on simplifying the process maintaining the chemistry of pools
- Was given a user interface design in Figma and a brief to build a custom e-commerce journey that integrated with Shopify.
- The business is planning to take orders in October 2025

Prose (Screenshots)

- Streamlining the way insurance brokers prepare proposals.
- As the Front-End owner I'm responsible for designing anything a user sees or interacts with.
- I'm aiming for a notion-like editor with the formality of Xero
- This is a work in progress and expected to be in Production with 1 pilot user by Q2 2026

Roam Wars (Screen Shots)

- Location based game, Pokemon Go meets Turf wars
- Font-End developer with a group using React.
- Backend is mainly Postgres for the GIS and intersection capabilities
- Working with in a team of 3 other devs
- Users track activity to compete for "Blocks" in their local area by walking or running around the block.
- Currently with some pilot users and working on extending out a Strava integration
